

PÉCSI TUDOMÁNYEGYETEM
UNIVERSITY OF PÉCS

INTERNATIONAL PROGRAMMES

UNIVERSITY OF PÉCS, HUNGARY

SZÉCHENYI PLAN

Business, Management and Legal Studies

BA Business Administration	5
MSc Applied Management	6
MA in Human Resources Counselling	7
PhD Programme in Business Administration	8
European and International Business Law – LL.M.	9

Medical, Health and Natural Sciences

General Medicine in English, Dentistry in English	10
General Medicine in German, Dentistry in German	11
Pharmacy in English	12
MSc in Medical Biotechnology	13
BSc Programme in Nursing and Patient Care, Nursing Speciality, Full and Part Time	14
BSc Programme in Nursing and Patient Care, Physiotherapy Speciality, Full Time	15
BSc in Biology	16
BSc in Chemistry	17
BSc in Computer Science	18
BSc in Geography	19
BSc in Mathematics	20
BSc in Physics	21
BSc in Physical Education and Coaching	22
BSc in Sport Management	23
BSc in Earth Sciences	24
Doctoral School of Biology	25
Doctoral School of Chemistry	26
Doctoral School of Earth Sciences	27
Doctoral School of Physics	28

Human and Social Sciences

BA in Psychology	29
BA in English and American Studies	30
MA in English Studies	31
MA in International Relations	32
MA in German Language, Literature and Culture	33
MA in German as a Minority Language and Literature	34
Doctoral Programme in English Applied Linguistics and TEFL/TESOL	35
BEd Training Kindergarten Teachers for German Ethnic Minorities	36
BEd Training Elementary School Teachers for German Ethnic Minorities	37

Arts and Engineering

Architecture (BSc + MSc, 10 semesters)	38
DLA in Architecture / PhD in Architectural Engineering	39
MA in Classical Music Education (Piano, Violin, Flute, Guitar)	40
MA in Ceramic Design	41

Summer Schools

Hungarian Language and Culture Summer and Winter University	42
“Culture and Diplomacy in Our Global World”	43
Simonyi Summer School	44

Preparatory Courses

Hungarian Preparatory Course for Degree Studies	45
English Language Preparatory Courses for Medical, Pharmacy, Dentistry, Business, Psychology and English Studies	46
3-Week Preparatory Course in Academic English	47
3-Week Preparatory Course in Biology, Chemistry and Physics	47

The University of Pécs has the right to change the fees.

The up-to-date fees can be found on our website at www.international.pte.hu

The first University of Hungary®

In the middle of the 14th century four universities were founded in Central Europe within a time-span of two decades: Prague, Cracow, Vienna and Pécs. The Hungarian king, Louis the Great of the Anjou dynasty, established the first Hungarian university in Pécs in 1367. The history of Hungarian higher education goes back to this date.

The University of Pécs is one of the largest institutions of higher education in Hungary. With its 26,000 students and 500 different study programmes the university offers a wide spectrum of teaching and research activities that is known and recognised well beyond the country's borders.

The University of Pécs comprises the following ten faculties:

- Faculty of Adult Education and Human Resources Development
- Faculty of Business and Economics (School of Economics)
- Faculty of Health Sciences
- Faculty of Humanities
- Faculty of Law (Law School)
- Faculty of Music and Visual Arts
- Faculty of Sciences
- Illyés Gyula Faculty
- Faculty of Medicine (Medical School)
- Pollack Mihály Faculty of Engineering and Information Technology

The University has been offering full study programmes taught in English for 30 years and German for 10 years. An increasing number of international students and researchers have been coming from over 80 countries to the University of Pécs to study and conduct research year by year. We are proud to host about 2,000 international students annually. Nowadays we offer Degree Programmes, Doctoral Programmes, Study Abroad Programmes, Summer and Winter Schools and Preparatory Courses for our international students, taught in English and German.

Science, research and innovation

The University of Pécs functions as a knowledge centre for innovation in the South Transdanubian Region. Nearly 2,000 teaching and research staff members participate in research projects at our 10 faculties. 20 doctoral schools offer PhD and DLA degrees that cover a wide spectrum of the sciences, scholarship and arts.

VALUE FOR MONEY

Our tuition fees are among the most competitively priced fees of any European university. The cost of living is very attractive for Hungarian and European standards for our international students.

Pécs, European Capital of Culture in 2010 and the fifth largest city in Hungary with a population of about 160,000, is a real Mediterranean beauty. It is situated in South Transdanubia, close to the borders with Croatia, Serbia, Slovenia and Austria. The city at the foothills of the Mecsek Mountains has a mild, sub-Mediterranean climate.

Its history goes back over 2,000 years to the Roman times. The downtown of Pécs is a unique mixture of the relics of Early Christianity (part of the World Cultural Heritage), the arrival of the Hungarians and the foundation of the first Hungarian state with its ecclesiastic institutions, the Ottoman-Turkish Empire and the achievements of modern architecture and arts with specimens of Art Nouveau and Bauhaus.

Pécs has received the prestigious title The European Capital of Culture for the year 2010. Together with its museums, art galleries, libraries, cinemas and musical life, Pécs is a lively university city full of restaurants, cafés and bars. It has an incredibly vivid student life day and night.

How to get to Pécs?

The easiest way to reach Hungary from distant countries is by plane. There are flights to Budapest, the capital of Hungary, from all major air-hubs in Europe. To reach Pécs from the capital one can take an intercity train or use a minibus service, which is a direct transportation service from the airport to any address in Pécs.

BA BUSINESS ADMINISTRATION

Faculty of Business and Economics

Degree: Bachelor of Arts (Honours)

Duration of training: 6 semesters (for the Middlesex University Degree) or 7 semesters (for the Hungarian National Degree)

Language of instruction: English

Head of the programme: Dr. Zsolt Bedő

Description of the programme:

The programme is conducted in an innovative way, including not only lectures but case studies, practical exercises and teamwork as well. The programme has a sizeable international student body and a number of guest lecturers from Europe and the United States. One special feature of the programme is that it is validated by the Middlesex University, London. Upon successful completion of their studies students will obtain two degrees, one Hungarian and one British from the Middlesex University, London.

Application procedure:

The arrival of the application is confirmed via e-mail. The Assessment Board reviews every application and makes a decision within 15 working days after the confirmation was sent. Every applicant will be informed about the decision of the Assessment Board immediately via e-mail. If an applicant meets the requirements and is informed about his or her acceptance they have to pay the tuition fee and send the receipt of the payment to the university. After paying the tuition fee the applicant will be provided with an official Acceptance Letter with which they can contact the Hungarian Embassy and apply for a visa.

Application requirements:

Application form, curriculum vitae in English, super legalized certificate of school leaving examination and/or transcript of previous studies, TOEFL certificate (no older than two years), the payment receipt of the 100 Euro application-fee (non-refundable), four passport size photographs.

Deadline for application: There is no deadline for submitting the applications, however it is to be noted that the visa application process can take two months. Therefore after 30th June the acceptance letter will be issued for not the upcoming but the next academic year.

Location of the education: Rákóczi út 80, H-7622 Pécs, Hungary

Tuition fee: 2,750 Euro per semester for non EU students, 320.000 HUF per semester for EU students.

Registration fee: 850 Euro (to be paid once in the first semester of the studies)

For more information, please contact:

Ms. Judit Trombitás

Recruitment- and Exchange coordinator

University of Pécs, Faculty of Business and Economics

Tel: +36-72/501-599/23160

E-mail: trombitasj@tkk.pte.hu

Web site: www.english.tkk.pte.hu

MSC APPLIED MANAGEMENT

Faculty of Business and Economics

Degree: Master of Science

Duration of training: 4 semesters

Language of instruction: English

Head of the programme: Dr. Zsolt Bedő

Description of the programme:

It is possible for ambitious students to enter the programme with different business-related backgrounds provided they are willing to work hard. Innovative teaching and learning methods are used in the training and every year each class has a guest lecturer from Europe or the United States. Graduates have the possibility to obtain managerial jobs or continue their studies at the PhD level. One special feature of the programme is that it is validated by the Middlesex University, London. Upon successful completion of their studies students obtain two degrees, one Hungarian and one British from the Middlesex University, London. The programme operates with a February start.

Application procedure:

The arrival of the application is confirmed via e-mail. The Assessment Board reviews every application and makes a decision within 15 working days after the confirmation was sent. Every applicant will be informed about the decision of the Assessment Board immediately via e-mail. If the applicant meets the requirements and is informed about his or her acceptance they have to pay the tuition fee and send the receipt of the payment to the university. After paying the tuition fee the applicant will be provided with an official Acceptance Letter with which they can contact the Hungarian Embassy and apply for a visa.

Application requirements:

Application form, curriculum vitae in English, super legalized certificate of previous BA studies in business or related fields, TOEFL certificate (no older than two years), the payment receipt of the 100 Euro application-fee (non-refundable), four passport size photographs.

Deadline for application: There is no deadline for submitting the applications, however it is to be noted that the visa application process can take two months. Therefore after 30th November the acceptance letter will be issued for not the upcoming but the next academic year.

Location of the education: Rákóczi út 80, H-7622 Pécs, Hungary

Tuition fee: 2,900 Euro per semester for non EU students, 380.000 HUF per semester for EU students

Registration fee: 850 Euro (to be paid once in the first semester of the studies)

For more information, please contact:

MA IN HUMAN RESOURCES COUNSELLING

Faculty of Adult Education and Human Resources Development

Degree: Master of Arts

Duration of training: 4 semesters

Language of instruction: English

Head of the programme: Dr. Zsolt Nemeskéri

Description of the programme:

The purpose of this course is to educate and train professionals who are experts in providing help to organisations and companies regarding any area of human resources management, one of the functional areas of leadership counselling.

In this course, besides laying a sound theoretical and methodological foundation, students will acquire up to date methods and techniques of strategy building, change management, personnel work and human resources management. Great emphasis is laid on specific aspects of organisational and social psychology relevant to the objectives listed. From among the practical skills trained the abilities of counselling and conflict management should especially be pointed out.

Application procedure:

The arrival of the application is confirmed via e-mail. The Assessment Board reviews every application and makes a decision within 15 working days after the confirmation was sent. Every applicant will be informed about the decision of the Assessment Board immediately via e-mail. If the applicant meets the requirements and is informed about his or her acceptance they have to pay the tuition fee and send the receipt of the payment to the university. After paying the tuition fee the applicant will be provided with an official Acceptance Letter with which they can contact the Hungarian Embassy and apply for a visa.

Application requirements:

- application form
- curriculum vitae in English
- certificate of previous BA studies in arts, social sciences, business or related fields
- candidates who were not educated in English speaking schools should provide certificates of proficiency in English
- the payment receipt of the 100 Euro application fee (the application fee is non-refundable)

Deadline for application: continuous application possible. Candidates applying later than 15th September will only be considered for the following academic year.

Location of the education: H-7633 Pécs, Szántó Kovács János u. 1/b.

Tuition fee: 3,999 USD per year

PHD PROGRAMME IN BUSINESS ADMINISTRATION

Faculty of Business and Economics

Degree: PhD

Language of instruction: English

Duration of the programme: educational period 4 semesters + the research period

Program Director: Dr. Edit Bányai

Description of the programme:

The Faculty of Business and Economics at the University of Pécs established its International PhD Programme in Business Administration for professionals in the world of business and in public administration with several years of experience in their field.

The Programme is designed to help students acquire the knowledge necessary for writing a successful dissertation and it also supports independent research by providing experienced faculty supervisors and professional feedback at dissertation seminars.

Admission:

In order to be considered for the program, the Applicant must hold a master's degree (MA or MSc in relevant field or an MBA).

Applicants who are still conducting their studies at the time of application must submit an official letter from their institution indicating the date of graduation.

Application procedure:

The application package must contain the following documents: preliminary research proposal (one or two-pages long, recommended research topics are available on the website); Curriculum Vitae in English; completed application form (available on the website); official copies of (degree) certificates; certified translations in English; transcript of records in English; list of publications (if any); four passport-size photographs

Graduation Requirements:

In order to gain the PhD degree, students must accomplish the following: receive grades in all modules, pass the Doctoral Examination (Comprehensive Exam); have at least 30+ credits of publication that cover the area of dissertation research; prepare the PhD Dissertation; defend the PhD Dissertation.

Deadline for application: continuous

Tuition fee: 12,500 Euro tuition fee has to be paid in four instalments during the course of study.

EUROPEAN AND INTERNATIONAL BUSINESS LAW – LL.M.

Law School

Degree: Master of Laws (LL.M.)

Duration of training: 2 semesters (full time)

Language of instruction: English

Head of the programme: Professor Miklós Kengyel

Description of the programme:

The Master of Laws (LLM) program provides an ideal platform for high-caliber students to acquire expertise in specialized subject areas informed by world-class, research-led teaching. It helps students enhance their abilities to think critically, analyze legal arguments, articulate ideas, research efficiently, and write effectively. This serves to prepare them for professional careers or further studies at a doctoral level. Combining public, private and economic law aspects in an international and European perspective is the major aim of the European and International Business Law LL.M. program. It does not focus primarily on institutional and administrative law of the European Union however it includes key features of international business. The program caters for those who already are, or desire to become, international legal practitioners in internationally operating law firms, courts of law, companies or organizations, or in national governments.

Application procedure:

On-line application form, an official version/translation of MA Law Diploma or equivalent, a document certifying the English proficiency.

Deadline for application: 10 August

Location of the education: Pécs, 48-as tér 1.

Tuition fee: 1000 Euro per semester

For more information, please contact:

Dr. Zoltán Nemessányi

Assistant professor

Faculty of Law, University of Pécs

Phone/Fax: +36-72/501-500/23212

GENERAL MEDICINE IN ENGLISH, DENTISTRY IN ENGLISH

Medical School

Degree: M.D., D.M.D.

Duration of training: 6 years (M.D.), 5 years (D.M.D.)

Language of instruction: English

Head of the programme: Professor Miklós Nyitrai

Description of the programmes:

These programmes provide complete theoretical and practical training in medicine and dentistry. The diploma issued by the Medical School is accepted by all European Union countries and several other countries (Norway, USA, Canada, Israel, etc.).

Application procedure:

Applicants should fill out an application form, attach the requested documents and submit the file to the Student Service Center of the University of Pécs, Medical School. It must be noted that only fully completed application files may be forwarded to the English Program Committee. Applicants are required to take an entrance examination which consists of a written test and an oral interview. The application fee is USD 200 and the entrance examination fee is USD 250 (if taken in Pécs). Applicants holding a BA or BSc degree in a medicine-related field might be exempted from this exam. The topics focus on biology, chemistry, and English.

Deadline for application: 30 June

Location of the education: University of Pécs, Medical School, H-7624 Pécs, Szigeti út 12.

Tuition fee: see website (<http://felvi.aok.pte.hu>)

GENERAL MEDICINE IN GERMAN, DENTISTRY IN GERMAN

Medical School

Degree: M.D., D.M.D.

Duration of training: 6 years (M.D.), 5 years (D.M.D.)

Language of instruction: German

Head of the programme: Professor Róbert Ohmacht

Description of the programme:

Every year 220 students begin their studies in the German Programme of the Medical School at the University of Pécs. A six-year General Medicine Program and a five-year Dentistry Program are available. General Medicine students have the opportunity to transfer to medical universities in Germany after the fourth semester is completed. In the case of transfer, students may continue their medical studies in the fifth semester in accordance with the new ÁAppO (Approbationsordnung für Ärzte) regulations. Instruction is conducted in small groups (20-22 students per group) and classes are held in the departments, institutes and clinics of the Campus close to the historical city centre.

Application procedure:

Applicants are required to fill in the online application form at:
Bewerbung.Medizin.pte.hu

The application fee is 200 Euro. Admission depends on the following factors: high school grades in Biology, Chemistry and Physics; the results of the high school diploma (Abitur).

Deadline for application: 1 June

Location of the education: University of Pécs, Medical School, H-7624 Pécs, Szigeti út 12.

Tuition fee: see website (<http://felvi.aok.pte.hu>)

PHARMACY IN ENGLISH

Medical School

Degree: Pharm.D.

Duration of training: 5 years (10 semesters)

Language of instruction: English

Head of the programme: Professor Pál Perjési

Description of the programme:

The Academic Programme offered by the School of Pharmacy leads to the degree of Pharm.D. This programme extends over a period of five years. It begins with an introduction to the basic sciences providing a basis for further pharmaceutical studies. In the second part of the programme, students take part in general and special pharmaceutical education at the university departments, teaching pharmacies, institutes, laboratories and pharmaceutical works.

The diploma programme consists of five years of basic and special studies. The first two years are devoted to the basic sciences. The 3rd, 4th and 5th years specifically concentrate on the special pharmaceutical sciences. After the 2nd, and the 3rd years, students take part in practical training in public pharmacies or at a pharmaceutical company in Hungary or in their home countries. In the 9th semester students must submit a written Thesis, and in the 10th semester they are engaged for 6 months in a practical training program in public and hospital pharmacies. After the practical training period, students take examinations in the presence of the State Board, where they have to prove their skills in pharmaceutical sciences (both practical and theoretical).

The Pharm.D. diploma entitles the bearer to work in public and hospital pharmacies, laboratories, pharmaceutical works, pharmaceutical research institutes, international commercial trade of pharmaceuticals, and management of pharmaceutical materials.

Application procedure:

Applicants should fill out an application form, attach the requested documents and submit the file to the Student Service Center of the University of Pécs, Medical School. It must be noted that only fully completed application files may be forwarded to the English Program Committee. Applicants are required to take an entrance examination which consists of a written test and an oral interview. The application fee is USD 200 and the entrance examination fee is USD 250 (if taken in Pécs). The topics focus on Chemistry and Biology. A good command of the English language is required.

Deadline for application: 30 June (upon request, late applications might also be considered)

Location of the education: University of Pécs, Medical School, H-7624 Pécs, Rókus u. 2.

Tuition fee: see website (<http://felvi.aok.pte.hu>)

MSC IN MEDICAL BIOTECHNOLOGY

Medical School

Degree: Master of Science

Duration of training: 4 semesters

Language of instruction: English

Head of the programme: Professor Judit E. Pongrácz

Description of the programme:

The MSc training aims to educate biotechnologists, who possess high-level theoretical and practical knowledge in medically oriented biotechnology. The programme is practice oriented providing the necessary skills for all the graduates to start working immediately after graduation in the biotech or pharma industry or enroll into PhD programmes. The programme is in English for both Hungarian and foreign students; as the English language is essential to succeed in any aspects of biotechnology. The programme provides opportunities for students to get involved in research activities in various departments of the Faculties of Medicine and Science or to prepare diploma work in biotechnology oriented small or medium enterprises or in the pharmaceutical industry (in Sanofi-Chinoïn-Aventis). The University is a member of the European Biotechnology Network which association actively supports the programme.

Application procedure:

Application is via e-mail by sending a letter of motivation, a curriculum vitae and a copy of the BSc certificate to medbiotech@aok.pte.hu

Deadline for application: 31 July

Location of the education: Medical School, University of Pécs, Szigeti 12., Pécs, H-7624.

Tuition fee: 5,500 Euro per semester

BSC PROGRAMME IN NURSING AND PATIENT CARE, NURSING SPECIALITY, FULL AND PART TIME

Faculty of Health Sciences

Degree: Bachelor of Science

Duration of training: 4 years

Language of instruction: English

Head of programme: Dr. András Oláh

Description of the programme:

The aim is to train nursing and health care experts who are able to take part with their full responsibility in prevention, treatment, nursing and rehabilitation at all levels of health and social care. Their knowledge is based on studies of individual, family, community and public health protection and rehabilitation as well as on health and social services. They have the adequate knowledge to continue their studies in the second cycle.

The training period is 8 semesters. The required number of credits for BSc is 240. Within the training field the minimum number of credits for the common training period is 25. The minimum number of credits to be allocated to the major is 110. The minimum number of credits to be allocated to the optional subjects is 12. Credits allocated to the thesis are 20. Minimum number of credits to be allocated to practical skills is 95.

Major subjects in Nursing speciality:

Basic health care, anaesthesiology, internal medicine, paediatrics, geriatrics, intensive therapy, neurology, psychiatry, surgery, obstetrics and gynaecology and nursing of all these as well as community nursing and nursing of chronic diseases.

Application information:

Secondary School-Leaving exam and intermediate level Proficiency in English required. Oral interview.

Deadline for application: 15 January (2nd semester), 3 May (1st semester)

Location of the education: Pécs

Tuition fee: 5,200 Euro per year (full time), 1,500 Euro per year (part time)

For more information, please contact:

BSC PROGRAMME IN NURSING AND PATIENT CARE, PHYSIOTHERAPY SPECIALITY, FULL TIME

Faculty of Health Sciences

Degree: Bachelor of Science

Duration of training: 4 years

Language of instruction: English

Head of programme: Professor János Kráncz

Description of the programme:

The aim is to train nursing and health care experts who are able to take part with their full responsibility in prevention, treatment, nursing and rehabilitation at all levels of health and social care. Their knowledge is based on studies of individual, family, community and public health protection and rehabilitation as well as on health and social services. They have the adequate knowledge to continue their studies in the second cycle.

The training period is 8 semesters. The required number of credits for BSc is 240. Within the training field the minimum number of credits for the common training period is 25. The minimum number of credits to be allocated to the major is 110. The minimum number of credits to be allocated to the optional subjects is 12. Credits allocated to the thesis are 20. Minimum number of credits to be allocated to practical skills is 95.

Major subjects in Physiotherapy speciality:

Basics of physiotherapy, manual techniques, physiotherapy of cardio-respiratory diseases, locomotor diseases, neurological-psychiatric physiotherapy, infant- paediatric and obstetrical-gynaecological physiotherapy, rehabilitation, electro- diagnostics, radiology and imaging procedures.

Application information:

Secondary School-Leaving exam and intermediate level Proficiency in English required. Oral interview.

Deadline for application: 15 January (2nd semester), 3 May (1st semester)

Location of the education: Faculty of Health Sciences, University of Pécs, Vörösmarty u. 4., H-7621, Pécs

Tuition fee: 5,200 Euro per year

BSC IN BIOLOGY

Faculty of Sciences

Degree: Bachelor of Science

Duration of training: 6 semesters

Language of instruction: English

Head of the programme: Professor Péter Putnoky

Description of the programme:

The Biology BSc offers a full 3-year-education in Biology. The study program for the full time training offers complete education in biology, with special directions in neurobiology, genetics, microbiology, animal and plant ecology, botany, zoology and plant physiology. Special directions in the second year have two modules: intra-individual (more laboratory practice and cellular biology) and supra-individual (more ecology) courses. Each module has 5-8 subjects with lectures, seminars and laboratory practices. The basic subjects are presented in lectures preparing for the practical courses which provide a wider view for the related scientific fields (chemistry and physics). The students will familiarize their knowledge with the most modern instrumentation in our new research center. It covers all aspects of education, research and innovation at the fields of biomedical, natural and environmental sciences. It also provides opportunity to join the research work in 22 research groups operating in the building.

Application procedure:

The students should pass an oral entrance exam in English. The teaching period starts in September.

Deadline for application: According to the University schedule – end of August

Location of the education: Faculty of Sciences, University of Pécs

Tuition fee: 2,500 Euro per semester

For more information, please contact:

Péter Putnoky, professor

Institute of Biology

University of Pécs, Faculty of Sciences

Phone/Fax: +36/72/501500

BSC IN CHEMISTRY

Faculty of Sciences

Degree: Bachelor of Science

Duration of training: 6 semesters

Language of instruction: English

Head of the programme: Professor László Kollár

Description of the programme:

The Chemistry BSc line offers a full 3-year-education in Chemistry. The study program offers complete education in chemistry, with directions in inorganic and organic chemistry, analytical and environmental chemistry, and physical chemistry. Special courses are included in instrumental analysis, advanced organic chemistry and physical chemistry measurements. Courses for deep knowledge in mathematics, chemometrics, basic theoretical chemistry and biochemistry complete the curriculum. The subjects are presented in lectures (theoretical background of the topics, with the aim to provide a wider view for chemical application), seminars with discussion of the topics and practicing chemical calculation, and laboratory work. The students will familiarize their knowledge with the most modern instrumentation.

Application procedure:

The students should pass an oral entrance exam in English. The teaching period starts in September.

Deadline for application: According to the University schedule – end of August

Location of the education: Faculty of Sciences, University of Pécs

Tuition fee: 2,500 Euro per semester

BSC IN COMPUTER SCIENCE

Faculty of Sciences

Degree: Bachelor of Science

Duration of training: 6 semesters

Language of instruction: English

Head of the programme: Professor Sándor Jenei

Description of the programme:

The Computer Science BSc line offers a full 3-year-education in Computer Science and Programming. The aim of the course is to educate students who will be able to work in the IT sector as coders or software developers, or continue their studies at a master (MSc) level. The basic courses include discrete mathematics, calculus, linear algebra, numerical analysis, probability and statistics, mathematical logics, system design, programming methodology, programming languages, software technology, computer architecture, operating system, networking, theory of databases etc. The courses are typically worth 2 or 3 credits. Having collected 90 credits from the fundamental courses, there is a choice between an academic and an applied specialization. The academic one is more focused on applied and fundamental mathematical issues such as operations research, advanced theory of algorithms, etc., while the applied one is for actual software development technologies. Both specializations offer flexibility in the choice of courses according to the students' interest. 70 credits are to be collected in this framework, while the remaining 20 credits are given for the preparation of the thesis.

Application procedure:

The students should pass an oral entrance exam in English. The teaching period starts in September.

Deadline for application: According to the University schedule – end of August

Location of the education: Faculty of Sciences, University of Pécs

Tuition fee: 2,500 Euro per semester

For more information, please contact:

Sándor Jenei, professor

BSC IN GEOGRAPHY

Faculty of Sciences

Degree: Bachelor of Science

Duration of training: 6 semesters

Language of instruction: English

Head of the programme: Dr. Antal Aubert

Description of the programme:

The Geography BSc line offers a full 3-year-education in Geography. The study program offers complete education in geography, with special directions in landscape and environmental studies, regional and settlement development and also in tourism. All three directions are supported by a strong GIS basis.

The program provides a general bachelor level education in geography. It includes introductory modules to natural and social sciences, to geology and to geography. The core of the program is based on the fundamental issues of including topics in physical, human and regional geography. Advanced courses can be chosen from the topics offered for the special directions. Beside the compulsory courses students have to choose optional courses to help them in their specialization. The courses usually consist of two parts: a lecture and a problem solving seminar, each worth 1 to 4 credits, depending on the nature of the topic.

The bachelor course in geography is the basis for the Master (MSc) line of applied geography with a special focus on the BSc specializations plus geomorphology and GIS available at our university.

Application procedure:

The students should pass an oral entrance exam in English. The teaching period starts in September.

Deadline for application: According to the University schedule – end of August

Location of the education: Faculty of Sciences, University of Pécs

Tuition fee: 2,500 Euro per semester

For more information, please contact:

Antal Aubert, associate professor

Institute of Geography

University of Pécs, Faculty of Sciences

BSC IN MATHEMATICS

Faculty of Sciences

Degree: Bachelor of Science

Duration of training: 6 semesters

Language of instruction: English

Head of the programme: Professor Sándor Szabó

Description of the programme:

The Mathematics BSc line offers a full 3-year-education in Mathematics. The course provides a general bachelor level education in mathematics, which can serve as a basis for further studies in mathematics or computer science. The basic courses include: logics, computer science, linear algebra, number theory, calculus, geometry, probability theory and statistics and game theory. Advanced courses include mathematical programming and operations research, group theory, computer algebra, numerical methods and applied computer science. The courses usually constitute of two parts: a lecture and a problem solving seminar, each worth 2 or 3 credits, depending on the nature of the topic. In addition to the 120 credits which have to be collected from the courses, 60 credits for the preparation of the thesis completes the 180 credits required for finishing the course.

The bachelor course in mathematics is the basis for the Master (MSc) line of applied mathematics (with a special focus on operations research) available at University of Pécs as well as other MSc courses available at other universities.

Application procedure:

The students should pass an oral entrance exam in English. The teaching period starts in September.

Deadline for application: According to the University schedule – end of August

Location of the education: Faculty of Sciences, University of Pécs

Tuition fee: 2,500 Euro per semester

BSC IN PHYSICS

Faculty of Sciences

Degree: Bachelor of Science

Duration of training: 6 semesters

Language of instruction: English

Head of the programme: Professor János Hebling

Description of the programme:

The Physics BSc line offers a full 3-year-education in Physics. The study program for the full time training offers complete education in physics, with special directions particularly in informatics in physics and applied physics (with a strong emphasis on laser physics).

The curriculum is organized in modules covering the introductory courses in natural sciences (24 credits), common courses (52 credits) for all physics students (basic courses in mathematics, physics and informatics). The courses related the specializations in applied physics cover the advanced topics in experimental and theoretical physics, the necessary courses in mathematics and informatics. The focus of the specialization in informatics in physics is data acquisition, signal processing in Lab-View, database management and programming in C# language.

The students will familiarize themselves with the most modern instrumentation.

Application procedure:

The students should pass an oral entrance exam in English. The teaching period starts in September.

Deadline for application: According to the University schedule – end of August

Location of the education: Faculty of Sciences, University of Pécs

Tuition fee: 2,500 Euro per semester

For more information, please contact:

BSC IN PHYSICAL EDUCATION AND COACHING

Faculty of Sciences

Degree: Bachelor of Science

Duration of training: 6 semesters

Language of instruction: English

Head of the programme: Professor Rita Józsa

Description of the programme:

The Physical Education and Coaching BSc line offers a full 3-year-education in Physical Education, Coaching and Sports. The study programme for the full time training offers complete education in physical education, coaching and sport with special directions particularly in team and individual sports, medical aspects of sport, social aspects of sport, sport sciences and professional practice.

The part-time education, i.e., two semesters in Physical Education and Coaching BSc line (the second year) include courses in five modules: team and individual sports (12 credits), medical aspects of sport (14 credits), social aspects of sport (10 credits), sport sciences (14 credits) and professional practice (10 credits). Each module has two or three subjects with lectures, seminars and laboratory practices. The subjects are presented in lectures, seminars with discussion of the topics and practicing scientific research, and laboratory work. The students will familiarize their knowledge with modern instrumentation. The purpose of the year (two semesters) is to prepare the students for practicing physical education and coaching.

Application procedure:

The students should pass an oral entrance exam in English. The teaching period starts in September.

Deadline for application: According to the University schedule – end of August

Location of the education: Faculty of Sciences, University of Pécs

Tuition fee: 2,500 Euro per semester

For more information, please contact:

BSC IN SPORT MANAGEMENT

Faculty of Sciences

Degree: Bachelor of Science

Duration of training: 6 semesters

Language of instruction: English

Head of the programme: Professor Rita Józsa

Description of the programme:

The Sport Management line offers a full 3-year-education in economic and social aspects of sport. The study programme for the full time training offers complete education in sport management with special directions in team and individual sports, sport economics, social aspects of sport, sport sciences and professional practice.

The part-time education, i.e., two semesters in Physical Education and Coaching BSc line (the second year) include courses in five modules: team and individual sports (10 credits), sport economics (16 credits), social aspects of sport (16 credits), sport sciences (14 credits) and professional practice (6 credits). Each module has two to five subjects with lectures, seminars. The subjects are presented in lectures, seminars with discussion of the topics and practicing the marketing and managing theories and practices of sport. The students will familiarize their knowledge with modern instrumentation. The purpose of the year (two semesters) is to prepare the students to understand the managing of sport organizations.

Application procedure:

The students should pass an oral entrance exam in English. The teaching period starts in September.

Deadline for application: According to the University schedule – end of August

Location of the education: Faculty of Sciences, University of Pécs

Tuition fee: 2,500 Euro per semester

BSC IN EARTH SCIENCES

Faculty of Sciences

Degree: Bachelor of Science

Duration of training: 6 semesters

Language of instruction: English

Head of the programme: Professor István Geresdi

Description of the programme:

The Earth Sciences BSc line offers a full 3-year-education in earth sciences. The program provides a general bachelor level education in earth sciences also offering the possibility to specialize in geology. It includes Introductory modules to natural sciences, to geology and also to geography. The core of the program is based on the fundamental issues of earth sciences and including topics in astronomy, cartography, geomorphology, geophysics, geochemistry, hydrology, meteorology, palaeontology, paleoclimatology, remote sensing, stratigraphy, etc. while a strong regional geographical aspect is also present. The program includes a limited variety of human geographical courses too.

Application procedure:

The students should pass an oral entrance exam in English. The teaching period starts in September.

Deadline for application: According to the University schedule – end of August

Location of the education: Faculty of Sciences, University of Pécs

Tuition fee: 2,500 Euro per semester

For more information, please contact:

István Geresdi, professor

Institute of Geography

DOCTORAL SCHOOL OF BIOLOGY

Faculty of Sciences

Degree: PhD

Duration of training: 3 years

Language of instruction: Hungarian and English

Program Director: Professor Róbert Gábor

Description of the programme:

The Doctoral School of Biology was accredited in 2001. There are two alternatives to get involved in the activities: participating in regular courses as full-time student or participating in part-time training.

Admission:

The applicant must hold a Master's degree (MSc) in a relevant field and has to take an oral interview.

Application procedure:

Applicants are required to fill in the application form that can be obtained from the Secretary of the Doctoral School and also from our website. Students need to attach the following documents as well:

- Curriculum Vitae
- Preliminary research proposal (2-3 pages long)
- Official copies of Degree Certificate plus certified translation in English
- Transcript of records in English
- Two letters of recommendation
- List of Publications (if any)

At the regular course about six Hungarian and a limited number of foreign citizens can be accepted. Since the accreditation of the Doctoral School more than 100 students have received PhD degrees, including several international students.

Program structure:

There are several research topics from the fields of genetics, microbiology, plant biology, ecology and regulatory biology.

Graduation Requirements:

Students must achieve 180 credits from different modules, have two publications (at least one with first authorship) in international journals that cover the area of dissertation, pass the Doctoral Examination, prepare the PhD dissertation and defend it.

Tuition fee: 3,000 Euro per semester

Deadline for application: end of May

For more information, please contact:

Dr. Ildikó Kerepesi

Institute of Biology

University of Pécs, Faculty of Sciences

Phone/Fax: +36-72/503-600 /24519

DOCTORAL SCHOOL OF CHEMISTRY

Faculty of Sciences

Degree: PhD

Duration of training: 3 years

Language of instruction: Hungarian and English

Head of the doctoral school: Professor Ferenc Kilár

Description of the programme:

The curriculum offers postgraduate training and a PhD Degree in a wide range of fields in chemical sciences, (Bio)analytical Chemistry, Bioorganic Chemistry, Homogeneous Catalysis, Chemistry of Coordination Compounds, Electrochemistry, Synthetic Organic Chemistry, Theoretical Chemistry, Environmental Chemistry, Biochemistry, and Separation Science.

Admission:

Graduation requirements for entrance to the doctoral school: graduate degree (MSc) in chemistry, chemical engineering or pharmacy.

Application procedure:

The students should pass an oral entrance exam, covering all chemistry areas, in English. The teaching period starts in September.

Programme structure:

The two parts of obtaining a PhD Degree: (a) research and educational program for 3 years under the guidance of a supervisor, the students take part and collect credits in courses prescribed by the supervisor (60 credits/year = 180 credits as a total); (b) the degree awarding process.

Graduation Requirements:

Graduation can be accomplished with two oral doctoral exams, presentation of original publications summarized in a written thesis, and the defense of the thesis (a PhD degree can be given to researchers with at least 3 internationally high level publications).

Tuition fee: 3,000 Euro per semester

Deadline for application: end of May

For more information, please contact:

Ferenc Kilár, professor

Institute of Chemistry

University of Pécs, Faculty of Sciences

Phone/Fax: +36-72/501-518

E-mail: kilar@ttk.pte.hu

Web site: <http://ttk.pte.hu/kemia/KemiaDI/e-index.shtml>

DOCTORAL SCHOOL OF EARTH SCIENCES

Faculty of Sciences

Degree: PhD

Duration of training: 3 years

Language of instruction: Hungarian and English

Program Director: Professor Zoltán Dövényi

Description of the programme:

The Doctoral School of Earth Sciences has developed from the PhD training programme called 'Spatial and environmental problems of socioeconomic activities'. The training programme began in 1994 and the Doctoral School was first accredited in 2001, then in 2010. There are two alternatives to get involved in the activities: participating in regular courses as full-time students or in part-time training.

Admission:

The applicant must hold a Master's degree (MA, MSc) in a relevant field and has to pass an oral interview.

Application procedure:

Applicants are required to fill in the application form that can be obtained from the Secretary of the Doctoral School and also from our website. Students need to attach the following documents as well: Curriculum Vitae, preliminary research proposal (2-3 pages long), official copies of degree certificate plus certified translation in English, transcript of records in English, two letters of recommendation, List of Publications (if any).

Programme structure:

There are several fields of teaching and research focusing on certain disciplines. The selection of research topics, training plans as well as fundamental and applied research is related to the following thematic groups and their leaders:

- Cultural geography: Dr. András Trócsányi
- Geology: Professor Tamás Budai
- Geography of tourism: Dr. András Trócsányi
- Geomorphology: Professor Ferenc Schweitzer
- Historical and political geography: Professor Zoltán Dövényi
- Meteorology and climate change: Professor István Geresdi
- Physical geography, landscape evaluation: Dr. Dénes Lóczy
- Population and settlement geography: Professor Zoltán Dövényi
- Regional geography: Professor István Szilágyi
- Regional and settlement development: Professor István Szilágyi

In the regular courses about six Hungarian and a limited number of foreign citizens can be accepted. Since the accreditation of the Doctoral School, more than 50 full-time students and more than 300 part-time (correspondent) students have participated in the training. In the past fifteen years more than 100 students have received PhD degrees.

Graduation Requirements:

Students must receive grades in all modules, have six publications (at least two international) that cover the area of dissertation, pass the Doctoral Examination, prepare the PhD dissertation and defend it.

Tuition fee: 3,000 Euro per semester

Deadline for application: end of May

For more information, please contact:

Dr. András Trócsányi

Institute of Geography

University of Pécs, Faculty of Sciences

Tel./Fax: +36-72/503-600/24487

DOCTORAL SCHOOL OF PHYSICS

Faculty of Sciences

Degree: PhD

Duration of training: 3 years

Language of instruction: Hungarian and English

Program Director: Professor János Hebling

Description of the programme:

The Doctoral School of Physics covers the fields that are the subjects of research in the Institute of Physics. There is a strong collaboration between the doctoral school and two institutes of the Hungarian Academy of Sciences: Wigner Research Centre for Physics and Institute for Technical Physics and Materials Science, as well as several international scientific collaborators and local industrial partners.

Admission:

The applicant must hold a Master's degree (MA, MSc) in a relevant field and has to take an oral interview.

Application procedure:

Applicants are required to fill in the application form that can be obtained from the Secretary of the Doctoral School and also from our website. Students need to attach the following documents as well:

- Curriculum Vitae
- Official copies of Degree Certificate plus certified translation in English
- Transcript of records in English
- Two letters of recommendation
- List of Publications (if any)

Programme structure:

The PhD School has four programmes:

- Quantum optics
- Nonlinear optics
- Laser physics, Industrial Laser Applications
- Nuclear and Particle Physics
- For the detailed description of research activity, topics and courses, consult our webpage or consult us.

Graduation Requirements:

Students have to collect 180 credits by taking regular courses, teaching and research activity. They have to publish two papers in accepted international journals (with impact factor). They have to pass the Doctoral Examination, prepare the PhD dissertation and defend it.

Tuition fee: 3,000 Euro per semester

Deadline for application: end of May

For more information, please contact:

János Hebling, professor

BA IN PSYCHOLOGY

Faculty of Humanities

Degree: Bachelor of Arts

Duration of training: 6 semesters

Language of instruction: English

Head of the programme: Professor Enikő Kiss

Description of the programme:

The general aim of the programme is to contribute to the intellectual and personal development of each student. Some students will choose to pursue more advanced studies in specialized areas, whereas others will choose to develop their studies within a broader educational experience before moving into a career in a wide range of employment sectors. The programme endeavours to enable students to develop their capacity to contribute both to their own development and to that of the society in their future career.

The courses of the programme involve the following disciplines:

1. General and Cognitive Psychology (perceptual basis of knowledge, emotion, motivation, attention, memory, thinking),
2. Evolutionary Psychology (ethology, sociobiology, adaptive designs in human thinking and behaviour, human sexual behaviour, parental behaviour, coevolution: the interrelation between evolution and culture),
3. Developmental Psychology (learning, communication, social development, analytical views of development, cognitive development),
4. Personality Psychology (directions of personality psychology, behavioural views of personality, psychoanalytical views, assessment of personality),
5. Social Psychology (culture and socialization, social psychology of communication, cognitive social psychology, analytical social psychology)
6. Foundations of Psychological Methodology (library informatics and basic statistics, mathematic statistics, psychometry),
7. Special Applied Fields of Psychology.

At University Pécs you may study psychology as a Single Honours degree. This can lead to careers in, for example, clinical, counselling, educational, forensic, health or occupational psychology. Many psychology graduates work in diverse occupations that do not carry the title 'psychologist' because the skills acquired while studying psychology transfer readily to various spheres in the world of work and provide an excellent general education. The skills that you will learn while studying psychology, which may be of value to you in future careers, include information finding, oral and written communication, numeracy, computer literacy, time-management, problem solving, group working and the ability to carry out independent research.

Minimum requirement: high school graduate (more information can be found at the Department)

Deadline for application: 31 May

Location of the education: University of Pécs, Faculty of Humanities

H- 7624 Pécs, Ifjúság u. 6., Hungary

Application fee: 140 Euro

Tuition fee: for EU citizens: 2,450 Euro per semester, from outside of the EU: 3,450 Euro per semester.

Language skills: If it is necessary, the Faculty of Humanities offers English Preparatory Courses.

BA IN ENGLISH AND AMERICAN STUDIES

Faculty of Humanities

Degree: Bachelor of Arts

Duration of training: 6 semesters

Language of instruction: English

Head of the programme: Professor Mária Kurdi

Description of the programme:

Our goal is to train professionals with a high level of theoretical and practical knowledge in the field of English Studies and related areas of the Social Sciences. This programme of study will enable our students to make a serious contribution to their field in theoretical and practical terms, utilising both inter- and multi- disciplinary approaches. Those who successfully complete their studies at Bachelor (BA) level will be well qualified to continue their studies at graduate (MA) level. By obtaining their BA, students will possess a wide range of skills and knowledge:

- a thorough understanding of the English language and of English-speaking peoples and cultures worldwide
- a high level of competence in the English language meeting the competency requirements of both the Written and Oral parts of the Advanced Level State Proficiency Examination
- familiarity with basic research- and study techniques within the field of English Studies
- the ability to translate a variety of non-field-specific texts in an intelligent manner.

In addition, with a knowledge of the social, economic and environmental characteristics specific to Hungary and to various English-speaking countries, students will be able to exchange such knowledge in a constructive, solution-oriented manner in order to:

- strengthen cultural ties through a creative application of their language- and problem-solving skills,
- contribute to local cultural and civic life, especially in the area of Anglophone-cultural connections
- play active roles in mass communication, media and tourism.

It is our hope that students holding a BA in English Studies will show a lasting interest in and love for English-language literatures and cultures and will be motivated to employ their ever-increasing knowledge in a manner that is at once creative, cooperative and responsible.

Application procedure:

High school degree, more information about the application procedure can be found on our website

Deadline for application: 15 July

Location of the education: University of Pécs, Faculty of Humanities, Institute of English Studies, H- 7624 Pécs, Ifjúság u. 6., Hungary

Application fee: 140 Euro

Tuition fee: 1,800 Euro per semester

Language skills: If it is necessary, the Faculty of Humanities offers English Preparatory Courses.

MA IN ENGLISH STUDIES

Faculty of Humanities

Degree: Master of Arts

Duration of training: 4 semesters

Language of instruction: English

Head of the programme: Professor Mária Kurdi

Description of the programme:

The goal of the degree programme is to train experts in the field of English Studies who have sound theoretical, methodological and practical knowledge of the English language and can apply such knowledge in practice. They have thorough knowledge and understanding of the literature, culture and the social and political system of English-speaking countries, including Great Britain, Ireland and Canada, the major trends and research fields of modern theoretical and applied linguistics and their results that mainly apply to the English language. They can apply the acquired knowledge in the business sector, the media, education, diplomacy, the publishing sector, tender agencies, local, regional and national government offices and, in general, in the cultural public sphere. Their knowledge and skills enable them to pursue studies at the doctoral level.

The programme is offered to full-time students as well as in the form of a correspondence programme. The range of subjects taught in courses of two academic-hour-long sessions (lectures, seminars and consultations) per week is grouped as follows:

- (a) Introductory courses in English linguistics, English history, literature and culture
- (b) Two paths students choose from:
 - specialization in English literature
 - specialization in English applied linguistics

The graduates of the MA degree programme are qualified for:

- carrying out tasks and filling positions that require special expertise and education; conceptual and abstract thinking; and practical skills in the field of English Studies,
- independent research, carrying out independent scholarly work and publishing original studies on the culture, history and literature of English-speaking nations and the English language,
- transmitting knowledge pertaining to the English language, English-speaking cultures and societies.

Personal abilities and skills required for the practice of the qualification:

- high level of professional motivation and commitment,
- highly developed ability to analyse and explore similarities and differences between cultures,
- intercultural attitude, good presentation abilities,
- high level of proficiency in English and good communication skills.

Application procedure:

Applications complete with the certificate of BA degree should be sent to the following address: University of Pécs, Faculty of Humanities, Admissions Office (Felvételi Iroda)
H- 7624 Pécs, Ifjúság u. 6., Hungary

Deadline for application: 15 July

Location of the education: University of Pécs, Faculty of Humanities
H- 7624 Pécs, Ifjúság u. 6., Hungary

Application fee: 140 Euro

Tuition fee: 2,000 Euro per semester

MA IN INTERNATIONAL RELATIONS

Faculty of Humanities

Degree: Master of Arts

Duration of training: 4 semesters

Language of instruction: English

Head of the programme: Professor Kecskés László

Description of the programme:

The goal of the MA degree programme in International Relations is to train highly qualified experts with broad education in the social sciences who can interpret Hungary's place and role in the international and in Europe; and know the theoretical and practical context of international relations. The graduates of the programme have a high level of proficiency in language and negotiation techniques. Their historical, sociological and professional education enables them to think in terms of analysis and synthesis. The knowledge of their subject matter enables them to understand and predict the economic, legal and political processes of the international system. They are able to put the perspectives of the East-Central European region into context amongst the many challenges of international relations. The graduates know and understand the developmental tendencies of the regions outside Europe and have thorough disciplinary knowledge in the areas of civilisation, world economy, international law, political science as well as practical skills in diplomacy, protocol and negotiation techniques. With these pieces of knowledge and skills they are properly qualified for pursuing their studies in a doctoral degree programme.

a) The graduates of the MA degree programme are qualified for:

- understanding, predicting and shaping international and European processes of integration,
- preparing and making decisions in the special fields of international economy, politics and law,
- participating in professional and scientific discussions,
- applying integrated knowledge in a wide range of fields in the area of social sciences and foreign policy analysis,
- conducting negotiations in their special area in a foreign language,
- performing various tasks as diplomats, international experts, researchers, journalists and employees of state administration and multinational companies.

Application procedure:

- Application Form
- BA Degree in International Relations
- For lack of the above degree, other degrees can also be accepted if they include the following disciplines: social science (sociology, philosophy, anthropology), law, economy, political science, history, culture and linguistics – please attach a transcript for the courses you have completed (title, credits)
- Motivation letter (introduction plus field of interest, etc.) in 3000 to 3500 characters
- Official copy of your language exam certificate if your native language is not English

Deadline for application: 15 July

Location of the education: University of Pécs, Faculty of Humanities

H- 7624 Pécs, Ifjúság u. 6., Hungary

Application fee: 140 Euro

Tuition fee: 1,800 Euro per semester

Language skills: If it is necessary, the Faculty of Humanities offers English Preparatory Courses.

MA IN GERMAN LANGUAGE, LITERATURE AND CULTURE

Faculty of Humanities

Degree: Master of Arts

Duration of training: 4 semesters

Language of instruction: German

Head of the programme: Professor Zoltán Szendi

Level and name of qualification to be obtained in the MA degree programme as listed in the degree certificate:

Level of qualification: Master of Arts (magister, master; MA)

Name of qualification: MA degree in German as a Minority Language and Literature

Main field of study: humanities

Number of credits to be earned for the MA degree: 120

Language of instruction: German

Description of the programme:

The goal of the programme is to provide students with thorough knowledge and skills in the following areas of German Studies:

- The present and past of literary studies and linguistics
- Old German literature (from the beginnings to 1700)
- The history of German literature from 1700 to the present day
- The history of the German language
- Text linguistics

In addition, students can choose as an elective a linguistic or a literature / culture module in accordance with their main field of interest. The linguistic module includes courses on sociolinguistics, contrastive linguistics, language norms and conventions in the past and the present, varieties of German, etc. The literature / culture module offers courses on literary schools, trends, genres in German literature, contemporary German literature, theory of the media and intercultural media, intercultural and intertextual interpretation of literature, etc.

Admission requirements:

BA degree in German Studies recognised in the EU (for students whose native language is not German a document certifying ECL C2 proficiency in the German language).

Application procedure:

Applications with a copy of the BA certificate should be sent to the following address:

University of Pécs, Faculty of Humanities Admissions Office (Felvételi Iroda)

Ifjúság útja 6., H- 7624 Pécs, Hungary

Deadline for application: 31 July

Location of training: University of Pécs, Faculty of Humanities, Ifjúság útja 6, H-7624 Pécs, Hungary

Application fee: 140 Euro

Tuition fee: 1,500 Euro per semester

MA IN GERMAN AS A MINORITY LANGUAGE AND LITERATURE

Faculty of Humanities

Degree: Master of Arts

Duration of training: 4 semesters

Language of instruction: German

Head of the programme: Dr. Zsuzsa Gerner

Description of the programme:

The goal of the degree programme is to train experts who have sound general and special knowledge and understanding of the history, language, language use, literature, intellectual and material culture and identity of the German minority in Hungary and as well as considerable expertise in the German language, literature and culture. The programme will also introduce students to the general legal, social and institutional conditions of minority life.

In addition – like in the MA degree programme in German Studies – comprehensive knowledge will be provided in the following areas:

- The present and past of literary studies and linguistics
- Old German literature (from the beginnings to 1700)
- The history of German literature from 1700 to the present day
- The history of the German language
- Text linguistics
- Sociolinguistics
- Schools, trends and genres in the history of German literature

Admission requirements:

BA degree in German Studies recognised in the EU (for students whose native language is not German a document certifying ECL C2 proficiency in the German language).

Application procedure:

Applications with a copy of the BA certificate should be sent to the following address:

University of Pécs, Faculty of Humanities

Admissions Office (Felvételi Iroda)

Ifjúság útja 6, H-7624 Pécs, Hungary

Deadline for application: 31 July

DOCTORAL PROGRAMME IN ENGLISH APPLIED LINGUISTICS AND TEFL/TESOL

Faculty of Humanities

Degree: PhD

Duration of training: 6 semesters

Language of instruction: English

Head of the programme: Professor Marianne Nikolov

Description of the programme:

The Programme is part of the Doctoral School of Linguistics, Faculty of Humanities and it is run by members of the Departments of English Applied Linguistics and English Linguistics.

The programme provides doctoral students with insights into recent issues in applied linguistics related to TEFL/TESOL and solid knowledge of research methods in the field of social sciences, linguistics, and language pedagogy. Students will be able to synthesise theoretical and empirical studies, design, conduct, and present their own research both orally and in written form.

The programme is taught by teaching staff of the Departments of English Applied Linguistics and English Linguistics as well as guest professors from other universities.

Application procedure:

Applicants need to submit a short research proposal and participate in an oral interview on their proposed research and previous academic work.

Deadline for application: 31 May

Location of the education: University of Pécs, Faculty of Humanities, Institute of English Studies

H- 7624 Pécs, Ifjúság u. 6., Hungary

Application fee: 140 Euro

Tuition fee: 2,000 Euro per semester

For more information, please contact:

ARCHITECTURE (BSC + MSC, 10 SEMESTERS)

Pollack Mihály Faculty of Engineering and Information Technology

Degree: Architect (BSc + MSc)

Duration of training: 10 semesters

Language of instruction: English

Head of the program: Dr. Bálint Bachmann

Description of the program:

Pollack Mihály Faculty of Engineering and Information Technology has had a tradition and speciality in architecture training. This history ensures the proper management of outstanding talents with special consideration on the number of students (30 students) and laying significant emphasis on the theoretical groundwork and the training of design at a high standard in the artistic and technical fields. During the first five-six semesters students are provided with the groundwork in both human artistic and real engineering fields, and during the remaining semesters they can acquire special knowledge closely related to their qualification – in this phase creative work and its final result, the completed work is dominant. The final complex design project and the diploma design project are a summary, a concentration of their studies and the final assessment of their acquired knowledge.

The main aim of our training is to create students who are able to apply their complex knowledge in the areas of architecture and urban planning as well as in the multi-faceted field of environment formation in general (architectural design, town and country planning, preservation of built heritage, structural design, construction work, management and administration tasks, consulting with authorities, teaching, etc.) In addition, our aim is to prepare students for getting their professional planning licence once they have acquired the required practical experience as set out in the relevant regulations. Within the professional field of architecture, students are prepared for individual expertise in a certain field and they can apply for admission to the DLA degree program based on their specialization. The DLA program operates within the framework of an accredited doctorate master school at the institute.

Application procedure:

Secondary school graduation diploma (Mathematics and Physics or Basics of Architecture) and drawing eligibility test. An admission form is needed with CV, letter of motivation and statement or transcript confirming sufficient knowledge of English.

Deadline for application: 1 March

Location of the education: Institute of Architecture, University of Pécs Pollack Mihály Faculty of Engineering and Information Technology, Boszorkány u. 2., H-7624 Pécs, Hungary

Tuition fee: 3,000 USD / 2,300 Euro per semester

For more information, please contact:

Dr. Bálint Bachmann dean, associate professor

DLA IN ARCHITECTURE / PHD IN ARCHITECTURAL ENGINEERING

Pollack Mihály Faculty of Engineering and Information Technology

Degree: Doctor of Liberal Arts in Architecture /
Doctor of Philosophy in Architectural Engineering

Duration of training: 6 semesters

Language of instruction: English

Program Director: Dr. Zoltán Bachman, professor, Head of the Breuer Marcell Doctoral School

Description of the program:

The primary task of the Doctoral School is to provide educational programmes of a high standard in accordance with the requirements of the Bologna system to those leading architects with an MSc or MA degree, as well as to those with an MA or MSc degree in an architecture-related field.

Application procedure/ Graduation Requirements:

Those Hungarian and foreign citizens can apply for the program who:

- already hold or in the year of admission are to obtain a university degree awarded to them by a Hungarian or foreign institute of higher education in the discipline or arts,
- performed independent creative work in the selected discipline or, for lack of this, continuously achieved outstanding results in planning/design subjects,
- have at least one intermediate level type 'C' (written and oral) state accredited language exam,
- present their previous theoretical and creative achievements in a portfolio.

Program structure:

see in the 'Doctoral School course programme' on the web site of the Doctoral School

Deadline for application: 15 July

Location of the education: University of Pécs Pollack Mihály Faculty of Engineering and Information Technology, H-7624 Pécs, Boszorkány u. 2.

Tuition fee: 3,000 USD / 2,300 Euro per semester

MA IN CLASSICAL MUSIC EDUCATION (PIANO, VIOLIN, FLUTE, GUITAR)

Faculty of Music and Visual Arts

Degree: Master of Music in Piano / Violin / Flute / Guitar

Duration of training: 4 semesters

Language of instruction: English

Head of the programme: Dr. Bence Vas

Description of the programme:

Our Master of Music Programmes in instrument performance (Piano, Violin, Flute and Guitar) focus on developing music performance skills and artistic qualities on the highest possible level. These programmes are for the truly committed – for those young artists who do have the aim to regularly be on stage. On the instrumental performance classes held two times a week for four semesters the goal is to achieve:

- technical abilities of a real virtuoso,
- playing stability and reliability,
- detailed stylistic knowledge of all major eras and genres of classical music related to the instrument studied,
- an ability to shape the musical process down to the smallest nuances and shades with ease and creativity,
- a fundamental respect for the composer's instructions, put into a viable combination with the performer's own ideas and personality,
- and, possibly most importantly: an open spirit with an honest motivation to, and ability of, getting in touch with the emotional essence of the music performed, and communicating it to the audience in a straightforward yet sophisticated manner.

In addition to solo performance, chamber music also has an emphasized role in the programme, with one lesson per week for all semesters, with the possibility of freely trying out several different ensemble formations, or studios of different chamber music teachers.

Complementary subjects such as music history, analysis or composition practice serve to further widen the range of theoretical knowledge of the student, which, in an indirect and subtle way, later always puts itself in the service of the practice of musicmaking on the stage.

Application procedure:

Sending portfolio and required documents (BA degree in Music and the relevant transcripts, Short Curriculum Vitae) via email evaluation.

Deadline for application: 31 March

Location of the education: H-7630, Pécs, Zsolnay Vilmos út 16.

Tuition fee: 5,000 Euro per semester (for EU and non EU students)

MA IN CERAMIC DESIGN

Faculty of Music and Visual Arts

Degree: Master of Fine Arts in Ceramic Design

Duration of training: 4 semesters

Language of instruction: English

Head of the programme: Professor Márta Nagy

Description of the programme:

At the Ceramic Design courses students are introduced to a wide range of silicate materials from classical materials of ceramic design up to concrete. The University of Pécs, Faculty of Music and Visual Art's Ceramic Department has a close partnership and located at the same site with the world famous Zsolnay Porcelain Factory in Pécs. Various types of forming methods from handcrafting to design and spacious studio places together with academic level personal tutoring provide the students the opportunity of finding their own artistic ways.

Application procedure:

Sending portfolio and required documents (BA degree in Ceramic Design and the relevant transcripts, Short Curriculum Vitae) via email for evaluation.

Deadline for application: 31 March

Location of the education: H-7630, Pécs, Zsolnay Vilmos út 16.

Tuition fee: 5,000 EUR per semester (for EU and non-EU students)

"CULTURE AND DIPLOMACY IN OUR GLOBAL WORLD"

ICWiP Debate Summer Academy – International Studies Summer School

Faculty of Humanities and SIEN Foundation, in co-operation with Faculty of Law, Faculty of Business and Economics and the 'Borderless Europe' Jean Monnet Centre of Excellence of the University of Pécs, Department of Political Studies

Language of instruction: English

Credits: 7 ECTS

Type of examination: oral, final debate and presentation

Course description:

The International Culture Week in Pécs is a popular complex youth summer event in Central Europe. Its International Studies Summer School provides an opportunity for students to get engaged with series of debates on topics closely connected with our transnational world. After 17 years, in 2013 the project is transformed into a debate summer academy with the central topic: "Culture and Diplomacy in Our Global World". Participants will master debating skills with the help of trainers, in addition to the speeches of acclaimed professionals they will follow.

Weekly hours: 20

Registration fee: 80 Euro

Tuition fee: 200 Euro (early bird: 170 Euro)

SIMONYI SUMMER SCHOOL

Faculty of Business and Economics

Language of instruction: English

Credits: credited as compulsory internship

Type of examination: no exam, written reflective overview

Course description:

The Simonyi Summer School builds on the successful co-operation with the regional firms and organizations with a good number of international students coming back for the experience again. The Faculty of Business and Economics of the University of Pécs and the Ohio University will be hosting students from the USA, Hungary, EU and other countries. Students will be participating in business and management consulting projects through a two week and a six week long program. This is a practical approach aimed at learning about many types of manufacturing and service providing businesses and organizations: the variety of problems and difficulties they face during the daily management process. The programme focuses on providing help in managing their problematic areas to improve their current and future status.

Weekly hours: 42-50 (intensive course)

Registration fee: Please contact us for information

Tuition fee: Please contact us for information

Deadline for application: 15 May
